Remediation and Construction Services

Remediation and Construction

EQM's Remediation and Construction group has successfully supported government, industrial, and commercial clients for more than 20 years. Our staff is comprised of engineers, geologists, hydrogeologists, chemists, environmental scientists, hazardous waste managers, and safety professionals. We have completed hundreds of site assessment, remedial action, re-utilization and redevelopment projects nationwide using sustainable solutions.

EQM has served as prime contractor on 36 federal remediation contracts valued at \$904 million, including 1,259 task orders at sites around the world. These include remedial action contracts for the US Air Force, US Army Corps of Engineers (USACE), US Navy Facilities Engineering Command, US Forest Service, Department of Defense (DoD), FAA, and US EPA.

EQM has been a US EPA Rapid Response Contractor for more than 20 years. Our experience, expertise, and performance has provided us with the ability to work in concert with clients, attorneys, and the stakeholder community.

Our commercial clients include: P&G, City of Forest Park, GE, Boeing, GM, Delphi, J.M. Smuckers, U.S. Steel, Lafarge Cement, and others.

EQM's Remediation and Construction services include:

- Agency Interface
- Building Remediation and Demolition
